Progress Report | Aditya Kuwar

Name: Aditya Kuwar

Std: VIII

School: St. Xavier's High School, Panchgani

Years with RA: 5

ACADEMIC UPDATE

The majority of Aditya's schooling during the academic year was spent online and Aditya loved every single minute of it. Aditya is a very competitive person and loves to take on new challenges which he did when the new concept of online learning was presented to him. He found some concepts difficult to learn when the teacher wasn't physically available to guide him but he took it upon himself to go through Google and YouTube to get a better grasp of the missed concepts away from his classes. Aditya knows his limitations and works hard to overcome them. He found mathematics slightly difficult so he approached a Ra senior in order to take evening classes for him and get a better hold on the subject.

EXTRACURRICULAR ACTIVITIES

Aditya is very creative and during the lockdown, he utilized his free time by learning how to make a flip book and sketches. He has a plethora of flipbooks with him, now that he has mastered the art of making them. He also learned how to make 3D drawings and made his first 3D drawing on the occasion of Diwali.

BEING AT HOME

Aditya spent the majority of his time practicing his art at home as well as helping out his parents. He loved sharing joyous occasions this time around when he stayed at home rather than a hostel and improved his bonding with his family members.
